mesomedixa

The **Hyamino Line** was developed and produced in Italy, thanks to our experience and with the support of the major **Italian Research Centers**, based on non-cross-linked **Hyaluronic Acid, Aminoacids, Peptides, Vitamins and Minerals** in an optimal formula to preserve and restore the quality of physiological conditions of the skin, favoring the maintenance of its elasticity and protecting it from natural chrono-aging and from external aggressions such as sun, cold and pollution.

*Mesomedixa* is the complete line for *Mesoterapia*  
*Face, Body, Hair* and divides into:

## Hyamino Care 75 - Biostructuring

**Hyamino Care75** is composed of hyaluronic acid in synergy with 4 amino acids that quickly repair and regenerate any type of skin at any age, an optimal formula to preserve and restore the quality of the skin by helping to maintain its elasticity and protecting it from natural chrono-aging and aggressions external such as sun, cold and pollution.

### **The 4 AminoAcids of Hyamino Care 75:**

•PROLINE •HYDROXYPROLINE •GLYCINE •LYSINE

### **The benefits of Hyamino Care 75:**

Restores the basic structure of the extra-cellular matrix and increases the synthesis capacity of fibroblasts, increases hydration and stimulates collagen synthesis, quickly improves the elasticity, freshness and brightness of the skin thanks to its optimal formula and the synergy of its components.

It can also be a powerful eutrophic anti-aging to increase the efficiency and duration of treatments with threads.

### **It's indicated:**

- In the physiological process of skin aging
- In the process of repairing the dermal tissue in moles advanced photoaging cases.

### **Recommended protocol:**

3 sessions with 3-week intervals, then maintenance of results with 1 session every 3 months. The protocol and concentration can be adapted according to the maturity of the skin.

### **Treatment area:**

Middle dermis or superficial dermis of the face, neck, hands and décolleté.

## Hyamino Care 125 - Highly concentrated biostimulant

**Hyamino Care 125** based on collagen precursors, it is a powerful antiaging, eutrophic connective tissue, restores elasticity and consistency to the skin tissue thanks to the synergy of its components present at high concentrations. Hyamino care 125 is formulated with low and high molecular weight hyaluronic acid and 4 aminoacids, composed of a concentration of 25 mg / ml in a buffer solution.

### **The benefits of Hyamino Care 125:**

Restores the basic structure of the extra-cellular matrix and increases the synthesis capacity of fibroblasts, increases hydration and stimulates collagen synthesis, quickly improves the elasticity, freshness and brightness of the skin thanks to its optimal formula and the synergy of its components. It can also be a powerful eutrophic anti-aging to increase the efficiency and duration of treatments with threads.

### **It's indicated:**

- In the physiological process of skin aging
- In the process of repairing the dermal tissue in moles advanced photoaging cases

### **Recommended protocol:**

Use Hyamino Care 125 on healthy disinfected skin that does not have inflammation, it is recommended to carry out an initial cycle of 3 treatment sessions at two-week intervals. Eventually followed by monthly maintenance sessions.

## Hyamino Firm - new concept of Biointegration

**Hyamino Firm** an innovation of traditional biorevitalization as it lightens and gives the skin a tensor effect thanks to the synergy of fibroblasts, it induces other selective activities in different structures and cell lines such as:

- **The keratinocytes**
- **Muscle fibers**
- **The melanocytes**
- **The fibroblasts**
- **The preadipocytes**

### **The advantages of Hyamino Firm:**

Hyamino Firm is composed of a concentration of 10 mg / ml of LMW and HMW hyaluronic acid, DMAE firming complex, 5 amino acids, 1 peptide and 1 vitamin in a buffer solution.

- Improves skin brightness and texture.
- Increases the elasticity, firmness and hydration of the superficial tissues.
- Fights the physiological process of aging in cases of loss of skin elasticity.

### **Recommended protocol:**

Use Hyamino Firm on healthy disinfected skin that does not have inflammation, it is recommended to carry out an initial cycle of 3 treatment sessions with an interval of one week between each other.

## Hyamino Hair - hair Biostimulator

**Hyamino Hair** conceived and designed to be used on the scalp. The combination of Hyaluronic Acid, Aminoacids, Vitamins and Mineral Salts provides nutrients that strengthen and nourish the hair follicle and promote the growth of new hair.

### **The benefits of Hyamino Hair:**

Hyamino Hair is used on the scalp to improve hair quality by restoring hydration and reducing hair loss by anchoring the hair follicle.

Hyamino Hair is composed of a concentration of 2 mg / ml of hyaluronic acid 5 aminoacids 3 vitamins and 2 mineral salts in a buffer solution.

### **Recommended protocol:**

Use Hyamino Hair on a disinfected, healthy and inflammation-free scalp. The protocol provides for 6 sessions of the entire content of 1 vial at intervals of 10 days from each other. Touch-up treatments are needed to maintain the result.

## Hyamino Eyes - Designed to correct imperfections in the eye area

**Hymino Eyes** is a product designed to correct imperfections in the eye area.

The combination of Hyaluronic Acid, Peptides and Vitamins reduces dark circles by promoting microcirculation, attenuating bags with a draining effect and improves the appearance of the skin by stimulating the activity of fibroblasts to counteract the signs of aging.

### **The benefits of Hyamino Eyes:**

- Reduces dark circles by promoting microcirculation
- Attenuates the bags
- Gives a draining effect and improves the skin's appearance
- Stimulates the activity of fibroblasts
- Helps counteract the signs of aging

Hyamino Eyes is composed of a concentration of 10 mg / ml of Hyaluronic Acid, DMAE, 3 Vitamins and 2 Peptides in a buffer solution.

### **Recommended protocol:**

3 sessions with 3-week intervals, then maintenance of results with 1 session every 3 months. The protocol and concentration can be adapted according to the maturity of the skin.

## Hyamino Purify AC - Innovative formula for the treatment of seborrheic skin

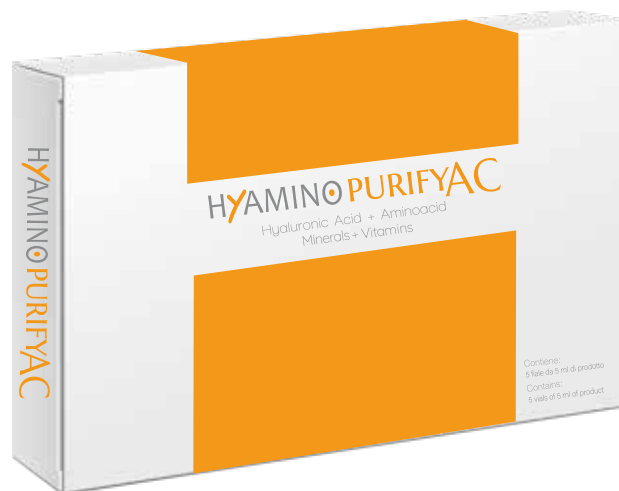

**Hyamino Purify AC** is an innovative formula for the treatment of seborrheic skin and various types of acne. The combination of Hyaluronic Acid, Amino Acids, Minerals and Vitamins, designed to regulate sebaceous secretions, purify and detoxify the skin ensuring an astringent effect.

### **The benefits of Hyamino Purify AC:**

Thanks to the synergy of its components, hyaluronic acid hydrates and stimulates the dermis, zinc rich in antiseptic and astringent properties, Vitamin B8 (Biotin) with the ability to preserve the integrity of the skin, Vitamin B6 (Pyridoxine), with its sebum-regulating action, and the amino acids Glycine, Lysine, Alanine stimulate scar repair. Hyamino Purify AC is composed of a concentration of 5 mg / ml of Hyaluronic Acid, 1 Amino Acid, 4 Vitamins and 1 Mineral in a buffer solution.

### **Recommended protocol:**

Use Hyamino Purify AC on disinfected skin, it is recommended to carry out an initial cycle of 4/6 treatment sessions at two-week intervals. Followed by bimonthly maintenance sessions

## Hydro Care 100 - Highly concentrated biorevitalizer

**Hydro Care 100** composed of Hyaluronic Acid, with a medium molecular weight, it is a powerful anti-aging, eutrophic connective tissue, restores elasticity and hydration to the skin tissue thanks to the components present at high concentrations.

Thanks to its efficacy, it biorevitalizes dehydrated skin damaged by aging and sun exposure. Developed and produced in Italy, thanks to our experience and with the support of the major Italian Research Centers. Hydro Care 100 is a transparent solution in the form of a decontaminated gel, composed of hyaluronic acid of 20mg / ml with low and medium molecular weight 40-100 Kda and 800-1200 Kda, in a buffer solution.

### **The Hydro Care 100 benefits:**

Hydro Care 100 is indicated in the physiological aging process of the skin and in the repair process of the dermal tissue in cases of advanced photoaging.

### **Recommended protocol:**

Use Hydro Care 100 on healthy disinfected skin that does not have inflammation, it is recommended to carry out an initial cycle of 3 treatment sessions at two-week intervals. Eventually followed by monthly maintenance sessions.

## Medistabyl Forte

The **Linea Medistabyl** is specifically designed to counter the imperfections of localized lipodystrophy (cellulite) even in the presence of an advanced state. The innovation that enhances the effectiveness of the formula is contained in the carriers, which allow to obtain a penetration of the active ingredients at extremely high levels.

**Medistabyl forte** was developed and produced in Italy, thanks to our experience and with the support of the main Italian research centers. Thanks to the active ingredients contained such as phosphatidylcholine and tocopherol, Medistabyl forte is a valid for burning fat, implementing drainage and diuresis. In the human body, phosphatidylcholine is one of the main components of the plasma membrane, regulating its fluidity, integrity and permeability. Provides choline, necessary to preserve the integrity of the cell membrane and facilitate the movement of fat inside and outside the cell. The fact that it promotes permeability is related to the saturation of fatty acids (as saturation increases, permeability decreases).

### **Treatment area:**

Apply the contents of the vial on the affected parts (abdomen, thighs and buttocks) massaging gently, until completely absorbed (each vial is sufficient for a single application). In case of very extensive cellulite, apply one vial in the morning and one in the evening until improvement. The duration of the treatment and the constancy in the applications are excellent allies for the quality of the results.

### **How to use:**

The recommended protocol is 1 session every 21 days, to maintain results. The protocol can be adapted according to the maturity of the skin.

## Medistabyl Body Cream

**Medistabyl Body Cream** is a body emulsion that helps to counteract skin imperfections caused by cellulite and adiposity. This "cosmetic-active" home product is rich in active substances and ingredients which, in synergy, aim to act both on the blemish in depth and as emollients and reinforcing the superficial skin tissue.

### **Indications:**

- Improvement of cellulite blemishes
- Increased microcirculation
- Increased skin firmness
- Greater skin hydration

### **Components:**

Tocopherol acetate, Hyaluronic acid, Almond oil, Caffeine, Phosphatidylcholine, Sodium deoxycholate, Carnitine, Fucus, Horse chestnut, Shea butter.

### **How to use:**

Two daily applications are recommended on the desired area, for at least 3/4 weeks. The application is carried out by massaging the cream with circular movements, until completely absorbed. Apply morning and evening on areas prone to cellulite and adipose panniculus blemishes (Abdomen, Inner Thigh, Hips, Buttocks, Culotte de Cheval), massaging until completely absorbed. It can be used after performing Medistabyl forte treatment.

## Derma Roller

**Il Derma Roller** is a roller equipped with hundreds of micro needles which, sliding on the skin, are able to penetrate beyond the epidermis: thus they create small lesions that are neither painful or dangerous, which allow a better absorption of the active ingredients during the treatment.

The Derma Roller is an accessory with many benefits, both for the face and for the body, to keep the skin young, smooth, elastic and without imperfections.

### Indications:

- It is anti-wrinkle because it stimulates the production of collagen, through the micro-lesions it causes, it pushes the cells to accelerate the regeneration process through the production of collagen.  
Result: brighter, smoother skin with a healthy glow
- Minimize the signs of acne
- Helps reduce stretch marks, scars and dark spots
- Improves the appearance of the eye area, reducing bags and dark circles
- It is useful for optimizing the results of hair care treatments: micro-cracks benefit the absorption of topical products applied to the scalp

### Available sizes:

**0.25 mm - 0.50 mm - 1.00 mm - 1.50 mm - 2.00 mm**

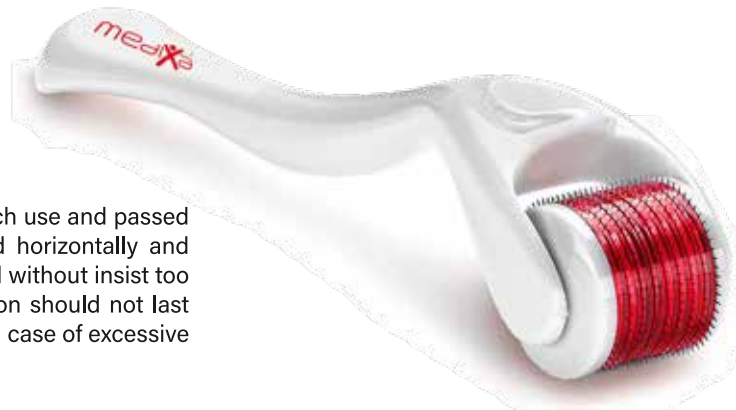

For post-treatment, for home use is recommended use derma roller with 0.25 mm needle length

### How to use:

The derma roller must be carefully sterilized after each use and passed on well cleansed skin. The device must be passed horizontally and vertically, taking care to make gentle movements and without insist too much on the same area, remember that each session should not last more than 2 minutes and that it should be stopped in case of excessive bleeding.

MICRONEEDLE  
540 Needles

## Mesomix Stamp e Mesomix Roll

**Mesomix Roll** it is a safe and efficient way to induce skin regeneration. The beauty device is used to enhance the absorption of effective products through micro-channels created on the surface of the skin, stimulating the production of collagen and addressing problems such as scarring, pigmentation and enlarged pores.

**Vial size:** 6 ml

**Needle length:** 0.25 mm - 0.50 mm - 1.00 mm

**Needle material:** mix of stainless steel and gold

**Mesomix Stamp** is a device for improving the beauty of the skin. Safe and efficient for use, this painless device transfers active ingredients directly into the deeper layers of the skin, improving the appearance of scars, enlarged pores and improving the overall appearance of the skin.

**Vial size:** 6 ml

**Needle length:** 0.25 mm - 0.50 mm - 0.60 mm - 1.00 mm - 1.50 mm

**Needle material:** mix of stainless steel and gold
